CHECKLIST FOR MEETING
WITH PRESIDENT MITTERRAND
AND CHANCELLOR KOHL

Milk: quantity for Ireland

We interpret Irish bid as
for 900000 tonnes (they
probably mean more)

We should go for no more
than 400000 tonnes.
(+ 17000 tonnes for N.
Ireland). This implies

either squeeze Italians
below their 350000 tonnes
in 1984/85 or 434000 tonnes
in 1985/86 (commitment
by Commission and probably
Presidency in negotiations
of Ag Council) to maintain
total reserve at 600000
tonnes.

or increase reserve to no
more than 800000 tonnes.

Budget Discipline

1. Must have "less than" formula (~~discussion~~ (concession for "significantly less"))
2. Will not accept text which rules out Treaty amendment.
3. Must have clear understanding that both guidelines become part of Community budgetary procedures.

Thorn

- 1) Joint change Treaty
until after elections
- 2) Rank review to
Ireland

Ask for increase in VAT
in 1982

Wohl - don't like
discussion. If food
Europeans need to pay
if not - bad
Europeans. Have to
get rid of over-tariffs.
